## FYI

*A monthly letter of communication for Weimar Academy parents and friends.*

### **Academy School Picture Day is October 14!**

- All students should wear their school uniform on that day. There are several package deals available. See information on back page.

### **Time Is Running Out!**

**Generation of Youth Conference** will be held in San Jose, CA on December 17 – 21. Many of our students have expressed sincere desire to attend this life-changing conference, however, assistance is needed in the area of accommodations and, of course, finances. If you would like to send your child, sponsor a child or offer any other type of assistance, please contact the Academy office as soon as possible.

- Just a reminder to please check your **email** regularly as we will be communicating with you that way in-between newsletters.
- Our first **vocational class** was held on Sunday, September 28. There was great enthusiasm among the students, and many talents were discovered during the 4-hour class. Classes offered this quarter are: sewing, art, welding, upholstery, baking and yearbook. Two classes: media and woodwork are scheduled to begin in October.
- **Parent's Weekend** will be on October 24 – 26. You are invited to visit the Academy and interact with your child in his/her school setting. Please mark your calendars and plan to be here during that weekend when the students will also be leading out in the devotional activities.

- At the end of this, our first full month of school, we were happy to receive positive and even glowing reports from some of the supervisors involved with our students in the **Work Education Program**. This program is meant to teach and promote positive work ethics that will represent Jesus in whatever field of endeavor our students undertake in the future. We hope you will continue to encourage your child each time they go home to continue with the positive practices they pick up at their place of work on Weimar's campus.

### **Academy Calendar:**
